

## Heavy Equipment Operator

### Position Detail

Barnard Steel River Joint Venture (BSR), based in Cranbrook, BC, is a pipelining company with projects in Alberta and British Columbia. We specialize in pipeline operations for water, oil and gas. We offer competitive wages, a generous health plan, and challenging career opportunities with a financially solid company. Our people are the reason for the success of the company. Our reputation attracts the highest quality personnel, people who are committed to producing projects that set a standard for excellence. At BSR, we build the riskiest, most difficult, complex jobs we can find, and we hire people who thrive on tough work and demanding opportunities.

### Essential Duties and Responsibilities:

Must possess competence in the following areas in order to perform his/her role in a safe, productive and effective manner:

- Ability to safely and effectively operate various types and sizes of heavy civil construction equipment including but not limited to dozers, tractors, scraper, loaders, and excavators.
- Minimum two years construction experience.
- Follow all company safety policies and procedures.
- Operate equipment in an efficient manner and follow instruction of on-site management.
- Follow all equipment monitoring and maintenance requirements.
- Be capable and willing to maintain equipment as needed.

### Job Requirements:

- Must have Class 5 driver license
- Must have Pipeline Construction Safety Training (PCST)
- Must be able to pass a pre-employment drug and alcohol screening.
- Ability to kneel, stoop, crouch, balance, climb or crawl.
- Ability to correctly rig and hoist material.
- Ability to tolerate heights without fear.
- Ability to maintain balance.
- Able to enter the cab of a vehicle or piece of equipment that is 3 feet or more off the ground.
- Ability to stand or walk for long periods of time, reach for, handle, and manipulate items and to work in extreme weather conditions (cold and wet).
- Able to work long, irregular and varied hours, six to seven day per week, 50 to 70 hours per week.
- Ability to maintain regular, punctual attendance consistent with the CSA, ADA, FMLA and other federal, provincial and local standards.
- Ability to safely and effectively perform the essential job functions consistent with the CSA, ADA, FMLA and other federal, provincial and local standards, including meeting qualitative and/or quantitative productivity standards.
